The new spectro::lyser V3

The next generation - from the market leader
COD, COD_f, BOD₅, TOC, DOC, UV254, NTU, TSS, NO₃, NO₂, H₂S, BTX, Spectral Alarm
high performance online water quality monitoring

3x more stable and precise*
spectro::lyser V2

100x more communication skills*
spectro::lyser V2

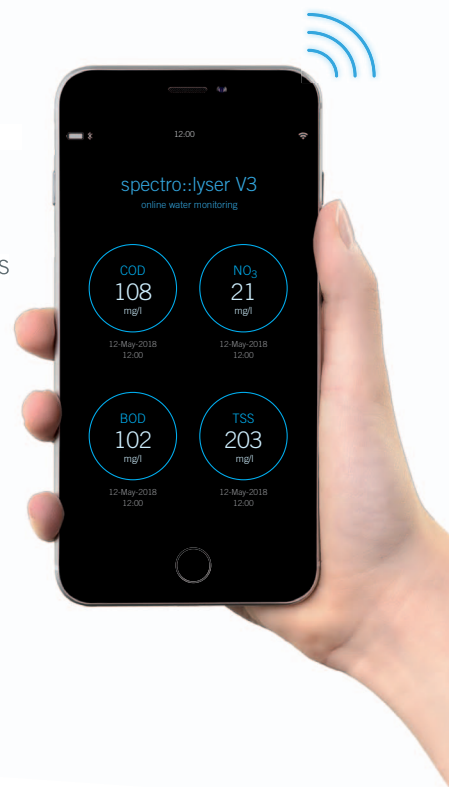

6x more measurement speed*
spectro::lyser V2

12 000x more onboard memory*
spectro::lyser V2

10x more power efficiency*
spectro::lyser V2

* ... remaining the undisputed leader in all disciplines

- Simplicity** Communicates directly with your smartphone via  **Bluetooth**
- Ingenuity** Web server on board, IoT enabled
- Transparency** Transmits sensor status via optical information ring
- Precision** Provides a new level of optical performance in all applications
- Integrity** With 10000 sensors in the field, we know how to make affordable spectrometers last forever
